## Feedback Report :2020-21

### Introduction:

In response to the unique challenges posed by the COVID-19 pandemic, our institution conducted a comprehensive feedback survey during the academic year 2020-21. The survey encompassed 100 students selected at random, prioritizing inclusiveness by disregarding class, department, and gender considerations. The purpose of this report is to analyze and present the findings from the survey.

### Summary of Feedback:

We have chosen 100 students at random, to diagnose the strengths and weakness from the perspective of the students. The questionnaires comprises of various aspects such as infrastructures, academics, governance and implementation of ICT tools etc. Out of the 100 random students there are 68 female students and 32 male students. 59 from final year, 27 from second year and 14 from 1<sup>st</sup> year students.

Moreover 54 OBC, 26 general 18 SC and 2 ST students have exercised their feedback.

After successful collection of the data from the students, the data were tabulated and analysed in MS Excell. Here we have introduced a rating system to evaluate the performance of the various aspects of the college. The aspects were rated on a 5 point scale where weightage has been given to 5 responses as follow.

Excellent	5 star
Very good	4 star
Good	3 star

Average	2 star
Bad	1 star

Accordingly the final cumulative star has been found by adding all the weightage (Star) of number of responses.
